

Rapid, compliant, strategic acquisitions.

Accelerate the acquisition process while fully complying with FAR/DFARS and supplemental regulations. Engage acquisition professionals with streamlined workflows, easy to use interfaces, artificial intelligence, and bots that automate repetitive tasks and provide predictive analytics.

Easily execute and manage federal contracts, while fully complying with FAR/DFARS and agency-specific regulations.

Efficiently plan and compete contracts in a timeframe that supports the mission, the needs of your agency, and the managing program offices.

Implement an auditable and secure, paperless process within your agency and the vendor community.

Gain visibility and insight from data and artifacts within the agency acquisition domain.

Stay abreast of new policies and training to aid in astute decision-making and avoid sustained protests, delays, and failed audits.

Streamline the complex RFQ process to expedite acquisitions, while ensuring compliance and saving money.

■ Modules

Acquisition toolkit.

Acquisition modules deliver comprehensive support. Fully comply with FAR/DFARS and supplements, reduce PALT and administrative effort, drive competition and lower prices, and get the latest best practices and powerful templates and tools.

Leadership & Workforce Development.

Leadership and Workforce Development delivers an array of features ranging from pressing policy guidance to best practices to advanced immersive learning environments.

Planning.

Planning enables program and technical leaders to collaborate easily with acquisition professionals to shorten lead time by accurately completing acquisition plans and packages.

Sourcing.

Sourcing provides buyers and sellers a comprehensive set of features to facilitate all stages of the sourcing lifecycle.

Contracting.

Contracting provides managers, policy makers, and 1102s a secure, efficient, proven approach to complying with FAR/DFARS and agency specific regulations.

Administration.

Unison Administration provides a wide range of vital benefits, including support for Procurement Management Reviews (PMRs), fraud prevention and detection, and robotic process automation (RPA) to automate tedious, time consuming tasks.

■ Clients

Who uses Acquisition.

Leading acquisition professionals in all 15 cabinet level agencies rely on Unison's Acquisition suite.

Contract officers and contract specialists

Plan their days, formulate acquisition plans, write and manage contracts, buy commodities online, meet training requirements, boost career potential, and remain current with key regulatory and legislative changes.

Senior procurement executives, head contract authorities, acquisition managers, and acquisition career managers

Engage and collaborate with their teams.

Program office staff, particularly COTRs and PMs

Collaborate with acquisition professionals — particularly during the planning and source selection processes.
