

Pathfinder.

■ Benefits

Navigate quickly and efficiently through the contracting process.

Unison Pathfinder helps the acquisition workforce navigate the acquisition lifecycle quickly and efficiently.

Map the procurement process through dynamic content that explains the core contracting processes from requirements development through contract closeout.

Train interns, new hires, and mid-careerists in different contracting methodologies.

Promote consistency and compliance through the entire Acquisition lifecycle.

■ Key Features

Pathfinder supports the use of standardized sets of policies, processes and procedures which promote consistency and compliance through a holistic contracting environment. Following policy-prescribed processes and on-the-job training to maintain acquisition workforce certifications are an essential component to building a strong team.

■ Customizable process routes

■ 24/7 access to the complete set of current policies, processes, and procedures

■ Best practices, cautions, and lessons learned

■ Streamline the contracting process

■ Improved communication between contracting and acquisition personnel

■ More efficient, effective, and consistent training
