

Bulk Mods.

■ Benefits

Automate modifications to federal awards and grants in bulk process.

Unison Bulk Mods automates the time-consuming process of administrative type modifications to awards and grants in a bulk process.

Reduce time spent on administrative type mods, such as changing a COR, updating invoice procedures, changing addresses, and more

Enable acquisition offices, contracting officers and grant officers to focus on other mission critical needs

■ Key Features

Unison Bulk Mods is an enterprise robotic App, automating modifications to federal awards and grants in bulk process.

- | | | |
