

# Data calls and audits made easy.

Unison CLM provides contracts professionals an intuitive, efficient, integrated approach to accurately, promptly answering data calls and fully complying with FAR/DFARS and agency-specific regulations.

Accurately and promptly address the heavy flow of urgent data calls from federal customers, auditors, and executives.

Mitigate insidious contracting risks with enhanced visibility and a better understanding of FAR/DFARS and agency-specific regulations.

Implement an efficient, standardized workflow to enable scalability of contracts under management without proportional increases to the size and cost of the contracts department.

## ■ Modules

# Contract Lifecycle Management toolkit.

Unison CLM Modules provide comprehensive support to contract managers. They ensure compliance with FAR/DFARS and supplements. They provide access and reporting controls and capabilities that make data calls and audits efficient and painless. They provide confidence to compliance and finance executives and protect contract managers from excessive and surprise overtime.

### **Pre-Award.**

Pre-Award captures and validates key information throughout the proposal process, provides an effective and readily auditable OCI vetting and mitigation process, and easily integrates with Salesforce and other CRM systems.

### **Prime.**

Prime streamlines and automates all aspects of managing awards, including comprehensive support at the line-item level, turnkey clause updates and management for FAR, DFARS, and agency supplements, and ready integration with all modern financial systems.

### **Subcontracts.**

Subcontracts provides industry leading flowdown capability to minimize data entry, maximize data integrity and ensure compliance, deliver must-have CPSR workflows, folder structures, and checklists, and integrate with all modern financial systems.

### **Integration.**

Integration complements CLM's SOA-compliant web services methods, providing mapping, queuing, and logging capabilities that accelerate and enhance integration options, especially for customers who want to avoid middleware licensing costs.

### **Marketplace.**

Marketplace is a full-service online tool optimizing the way governments buy and vendors sell goods and services they need. Marketplace enables small and large companies to easily bid, win, and manage government contracts.

### **CDRL Prime.**

CDRL Prime provides contractors with an intuitive, highly automated, end-to-end approach to effectively manage data deliverables as a prime or subcontractor to include supplier data deliverables.

## ■ Clients

# Who uses CLM.

Professionals from Contracts, Procurement, Compliance, Finance, BD, and Program Operations make better decisions faster with help from the CLM Suite.

### **Contract executives, managers, and specialists**

Automate the tedious aspects of their jobs so they can focus on strategic work with colleagues and customers.

### **Finance and compliance professionals**

Validate financial forecasts, reduce DSO, and mitigate enterprise, department, and career risks.

### **BD and Program Operations teams**

Find optimal contract vehicles, easily find and leverage past performance records, and inform customer communications about funding, deliverables, and key modifications.
