

Prime.

■ Benefits

Streamline contract management.

Unison Prime streamlines and automates all aspects of managing awards, including comprehensive support at the line-item level, turnkey clause updates and management for FAR, DFARS, and agency supplements, and ready integration with all modern financial systems.

Fully comply with government reporting requirements.

More accurately and efficiently respond to data calls, including those from Finance, Business Development, Compliance, GSA, DCAA, and DCMA.

Implement an efficient and standardized workflow.

Scale the organization without proportional increases to the size and cost of the Contracts department.

Shift focus to mitigating insidious contracting risks and allowing time for customer relationships.

Retain vital institutional knowledge.

■ Key Features

Unison Prime provides contracts professionals with an intuitive, efficient, integrated approach to accurately, promptly answer data calls and fully comply with FAR/DFARS and agency-specific regulations.

■ Out-of-the-box integration with leading GovCon financial management systems (e.g., Deltek Costpoint).

■ Automation of urgent, tedious, high-volume aspects of FAR/DFARS compliance, data calls, and reporting.

■ Central repository of contract documents easily accessible across the organization.

■ CLIN/SLIN/ACRN tracking to verify, report, and provide notifications regarding available funding.

■ Standard Contract Brief to meet DCAA audit requirements.

■ Purpose-built for GovCon and supported by a team with deep domain experience in federal contracting.
