CDRL.

PM

■ Benefits

Simplifying the management of contract data submissions.

Unison CDRL provides data management professionals an intuitive, highly automated, end-to-end approach to effectively managing contract data submissions. The CDRL module is widely recognized as an integral part of program best practices and used by leading program offices around the world.

Greater validity and accuracy of CDRL requirements.

Transparency that improves vendor delivery performance and schedule.

Higher efficiency and elimination of process bottlenecks.

Increased visibility of programmatic data requiring review and government disposition.

Elimination of duplicative efforts and rework.

■ Key Features

Unison CDRL addresses full CDRL management, including DID, form generation, routing, vendor submissions, and approvals.

- Easily report on full status-accounting data, including contractor due dates, government approval due dates, and disposition dates.

- Automatically capture and consolidate all reviewer comments for each individual CDRL review cycle.

- Supports the full lifecycle of the contract data management process.

- Based on DoD 5010.12-M Acquisition Management Standards.

- Direct, secure connection between the vendor and government system to interchange data, reducing volume of data entry.
