

# PRISM Grants.

## Benefits

# Powerful and intuitive financial assistance system.

Unison PRISM Grants is widely recognized as the most powerful and intuitive financial assistance system. It delivers a robust tool set designed specifically for government programs and manages all aspects of an award, from initial offering and application evaluation through award and post-award management and reporting.

Fully comply with Federal financial assistance and agency policies

Avoid duplicate data entry for announcements, evaluation, grant writing, and post-award administration

Accomplish your paperless office goals including grantee performance reports

Gain real-time visibility and transparency across the enterprise, including comprehensive audit trails

## Key Features

Unison PRISM Grants provides the financial assistance community with an integrated, standard, scalable approach to posting funding opportunities, awarding grants, and managing grantee reports.

- Fully supports the entire financial assistance lifecycle, including planning, funding opportunity announcement, evaluation, award, post-award management, and closeout.
- Ability to share data across documents—eliminates duplicate data entry.
- Electronic central document repository, which meets paperless documentation and audit mandates.
- Readily integrates with financial management systems and federally mandated systems, including SAM, Grants.gov, and Treasury reporting.
- Guidance based on the type of grant.
- Electronic delivery of award and post-award reporting, such as the SF-425.
- Library of web services enabling integration with any modern peripheral system.
- Extensive support for shared services providers that need different configurations for their different customers.
- Structured maintenance program covering customer care, enhancements, technical support, and regulatory changes.
- Extensive set of standard reports and ad-hoc reporting capability.
- Rule-based user access.
- Workflow and approvals rules.
- E-signature support.
- Multi-currency support.
- Single sign-on PIV/CAC card enabled.
- Proven full and fast Initial Operating Capability (IOC).
- Compliant with all applicable federal security standards.
- Section 508 compliant.
