

Marketplace.

■ Benefits

Simplify the RFQ process.

Unison Marketplace is an all-encompassing online acquisition platform that assists Buyers in purchasing commercial items goods and services needed to fulfill their procurement requirements.

Buyers gain unique and powerful insight into customer needs, and vendors' offerings and performance history.

Buyers save time with a simplified RFx process that helps ease regulatory compliance and delivers full documentation on every action.

Buyers meet or exceed federal socio-economic set-aside and non-traditional vendor utilization goals.

Vendors access and filter thousands of opportunities to compete and win on a level playing field.

■ Key Features

How it works

- 1 Post** a requirement using a simplified RFx process through a FAR/DFARS compliant marketplace.
- 2 Vendors compete** on a marketplace where Unison Marketplace manages the sourcing process and drives competition among qualified Vendors.
- 3 Award** to the Vendor of your choosing.

There are no upfront costs, set-up, installation, and our team is available to provide rapid onboarding.

Unison Marketplace provides a streamlined solution that compliments your current procurement process and saves on average 4-8 working hours per requirement.

■ FAQ

Does Unison Marketplace charge fees? Yes. The transaction fee is included in the total price the government pays the awarded vendor. Once the vendor is paid, they remit the fee to Unison Marketplace. This model eliminates out-of-pocket costs for Vendors.
