

Accelerator Prime.

Align Teams, Boost Productivity and Morale.

Accelerator Prime quickly and continually provides contract leaders a shared understanding of cost, schedule, performance and risk.

Cost

Get accurate, intuitive views of budget, commitments, obligations and expenditures.

Schedule

Review progress versus key tasks, view resource assignments, deliver notifications whenever appropriate.

Performance

Create detailed QA plans and record scheduled performance.

Collaboration

Enable collaboration between all relevant stakeholders, including program staff, BD and finance.

Key Features

Accelerator Prime maintains a single version of the truth so that team members can quickly understand each aspect of the program and keep stakeholders apprised of progress.

Perfect, Affordable Fit

- Configurable workspace(s) based on program type/category with necessary templates, task lists, milestones, documents and guides.

Easy to Learn and Use

- Page level on-line guidance to enable the end user to understand the data.

Right Reports for Each Audience

- Capture structured data for reporting and situational awareness.
- Roll-up cost information from program to portfolio level.

Clarifies Team Structure and Roles

- Establish Integrated Program Teams (IPT).
- Ability to assign tasks and milestones to individuals or teams.

Weaves Together Existing Information

- Link or interface to other tools and systems (e.g. CRM, CDRL, Financial systems).
- Links to documents in existing repositories (e.g. SharePoint, websites, intranet).

Turnkey Document Management

- Document templates to help standardize documents.
- File structure to organize documents.
- Workflow to enhance collaboration.
- Ability to create consolidated packages for a range of objectives and subteam.
